Metareciclagem? O que pode um

pedaço de carne? Sigo aquela mesma

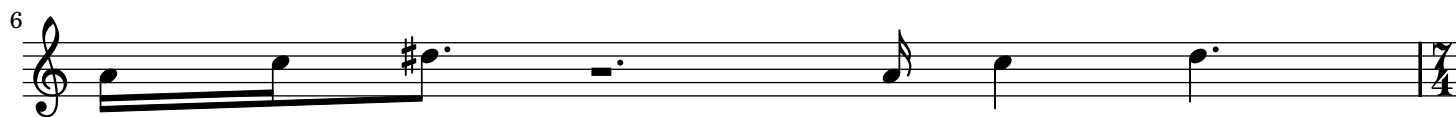

música. Acreditando na melodia mas estruturalisticamente

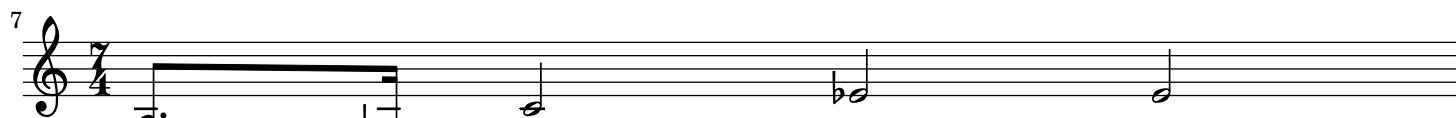

quase ritualisticamente operando clinicamente na

palavra. Ocupe as ruas, ocupe as

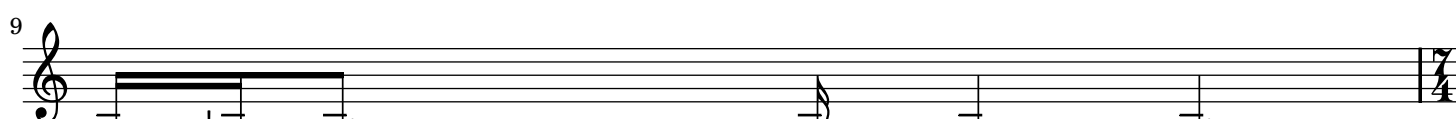

praças, ocupe-se, mas me deixe ir.

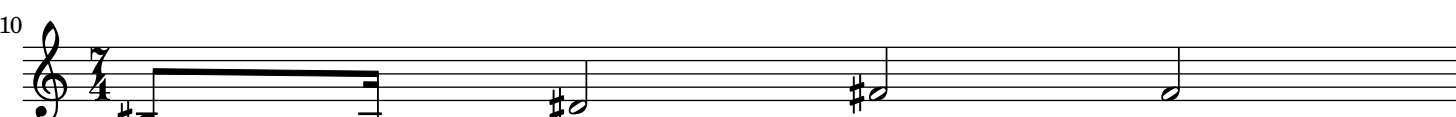

Aquela nossa velha lágrima do

primeiro choro: Pulmão escancarado! Animal racional,

bem vindo a cultura! Então, veio

a medicina, cortar-nos o umbigo.
